BOARD N' TRAIN

(Puppies 16 wks. to Adult)

Our Board N' Train program has been continuously developing for over 35 years. Our program is immersive and your dog experiences a 24/7 learning and training program customized to their specific needs.

Each Board N' Train dog participates in the Daycare Program (see below), our Boarding Program (see below), as well as 1-3 hours of scheduled training time to focus on specific goals provided by the owner.

At pick up for each Board N' Train guest there is a scheduled training session with a trainer to go over what was covered and how to maintain and improve the training once they come home. We also provide phone and text support for any questions once they are home, to make sure the transition goes well and successful.

We highly encourage all owners to continue their education and follow up with group classes or even private lessons. One of our highest priorities is for each owner and dog team to succeed in reaching their goals.
